## Spring Family Fun Day!

The Rise group made hanging basket stands from scratch to sell at family fun day to raise money for our goal community trip to Worlds of Fun coming up this summer!

First, the individual planks of wood needed to be sanded and prepped.

After the construction of the basket stands, Rise sanded again to make the wood clean and ready for staining.

Once completely smooth, the Rise group stained the wood, and left the stands to dry-out overnight before putting the finishing touches on.

Completed Product!
